

## Shank-Free and Metal Free Product Line

#6025-24 & #6025-36 – Orange Shank-free Plastic Dust mop frame - 24/Box

- Flexible Rubbery Plastic – eliminates the ability to be sharpened into a shank. Safety Orange Polymer is a soft plastic that is strong and durable.
- It provides the frame flexibility and improves safety while cleaning.
- Ribbing acts as beater when shaking mop
- Standard 5" width
- Requires Shank-Free Clip-On™ (6031E-F56) or (6031E-PL56), sold separately. Available in 24" (#6025-24) and 36" (#6025-36)

#6031E-F56 -Shank-free Plastic Clip-On Connector with Fiberglass handle - 24/ Box

- Made from flexible rubbery plastic which eliminates the ability to be sharpened into a shank or shank holder
- Can be locked straight for hallways or unlocked for swivel action around corners
- Durable
- “Panther Pole” Black Fiberglass handle is connected directly to connector with adhesive.
- Metal-Free
- Made exclusively for the Shank-Free Backbone™ [Item # 6025]
- **“Panther Pole” Black fiberglass handle will shatter and bend under high-impact.**
- **If the Fiberglass Handle should become damaged it must be discarded immediately**

## #6031E-PL56 - Orange Shank-free Plastic Clip-On Connector with Plastic Handle - 24/Box

- Made from flexible rubbery plastic which eliminates the ability to be sharpened into a shank or shank holder
- Can be locked straight for hallways or unlocked for swivel action around corners
- Durable
- Metal-Free
- Made exclusively for the Shank-Free Backbone™ [Item # 6025]
- New PLASTIC handle is connected directly to connector with adhesive

- 1” diameter handle
- Inherently strong and durable fiberglass
- **“Panther Pole” Black fiberglass handle will shatter and bend under high-impact.**
- **If the Fiberglass Handle should become damaged it must be discarded immediately**

## FLIP-LOCK™ Extension Poles –

Professional quality FLIP-LOCK™ Extension Poles make it possible to do Up-In-The-Air tasks from ground level without the need for a ladder. Now, window cleaning, dusting or even changing a light bulb can be accomplished quickly and easily.

**FLIP-LOCK™ Extension Poles (Item # 7000) are available in lengths of 2', 4', 6', 8', 12', 16', 18, 20', 24', 28' and 32'.**

Key Features:

- Modular fiberglass pole design with six pole diameters ranging from 3/4" to 2". Inner poles with increasingly smaller diameters slide inside outer poles.
- Positive locking device: To adjust the two poles to the length required, simply push locking lever up to release the lock. The poles are adjusted as needed, and then the lever is pulled down to lock the pole in place. Once locked, the inner pole will not move, turn, slide or rotate.
- The locking device can be adjusted easily for correct locking tension
- 100% Metal-Free

## Fiberglass Extension Poles –

New fiberglass Telescopic Extension Pole with tapered adjustable double arms for attaching tools to clean walls, ceilings and hard to reach places.

**Item #7002-2** – 2 ft., 2 section

- G. 8205- (.957 actual ID)**
- H. 8210- (1.017 actual ID)**

**Outside Extended Tips (3 sizes)**

- I. 8215- (.757 actual ID)**
- J. 8220- (.945 actual ID)**
- K. 8225- (1.008 actual ID)**

**Cam-Lock™ Threaded Tips**, only from Briarwood Products! Our patented design will keep brush and broom handles from becoming loose. The unique “Cam-Locking” threaded tip creates a tight union between the handle and tool, making it very difficult to unscrew.

The super strong Cam-Lock™ Threaded Tips can be purchased already assembled onto a handle or sold separately. Available in 9 different styles to accommodate most any brush, broom or Handle.

Key Features:

- Prevent breakage of handles
- Strong engineering grade plastic
- Designed for a secure fit
