Shank-Free Products

Prison Safe Shank-Free and Metal-Free Product Line

(920) 487-3614 | sales@algomamop.com

Prison Safe Shank-Free Correctional Cleaning Tools

Prison Safe Shank-Free Cleaning Tools. The product line was developed in response to widespread safety concerns from correctional officers.

Safety Managers previously began replacing metal tools (used by inmates to make “shanks”) with hard plastic tools. They discovered that creative inmates were melting down the hard plastic and hand-crafting shanks. The new tools are made from a specialized rubbery plastic that virtually **eliminates shanks and handcrafted weapons**. The unique polymer used will not melt or sharpen like other standard hard plastics. Inmates cannot form or re-form the plastic into a new shank or shank handle.

Made in the USA, and currently being used in Correctional facilities throughout the world.

(920) 487-3614 | sales@algomamop.com

Prison Safe Shank-Free and Metal-Free Product Line

All Shank-Free cleaning tools are 100% metal-free and ideal for use in correctional facilities. The products are designed to eliminate the potential to form or reform a shank or shank handle.

#6062 Shank-Free and Metal Free Toilet Bowl Brush

- The handle of the toilet bowl brush is made from a specialized plastic that is unable to be broken or sharpened into a weapon
- The anti-acid head of the brush as well as the handle eliminates the growth of bacteria and mildew.

(Toilet Bowl Brush Holder will be sold separately)

#6062
50/Box

#6062
100/Box

Cases can not be split

The #6062 toilet bowl brush eliminates an inmate's ability to break or sharpen the handle, increasing the overall safety within the facility. As test samples have been sent to facilities across the United States, the feedback has been remarkable. One facility stated, "I am really impressed with this product. The toilet brushes are holding up well" – Anonymous.

#6063 Fire Retardant Toilet Bowl Brush Holder

The #6063 is a self extinguishing Fire Retardant Shank-Free Toilet Bowl Brush Holder. It is made from a specialized plastic that is unable to be sharpened into a weapon. The #6062 toilet bowl brush is sold separately.

Shank-Free and Metal-Free Backbone Dust Mop Frame (#6025)

The Shank-Free Dust Mop Frame is made from a specialized rubbery plastic that eliminates the ability to be sharpened into a shank. This is a standard 5” frame and the specialized polymer is strong and durable to tackle all cleaning tasks. The ribbing on the frame acts as a beater when shaking the mop.

The Shank-Free Dust Mop Frame can be used with either the Flexible Plastic Handle and Connector (#6031E-PL56) or the “Panther Pole” Black Fiberglass Handle (#6031E-F56) which are **both sold separately**.

Safety Orange Shank-Free Clip-On (#6031E)

The Shank-Free Clip-On is made from a rubbery plastic which eliminates the ability to be sharpened to form or reform a shank or shank holder.

The Clip-On can be locked straight for hallways or unlocked for swivel action around corners.

This is a Metal-Free product that is available in either our Flexible Plastic handle (6031EPL560) or our “Panther Pole” Black Fiberglass Handle (6031E-F56).

Shank-Free 24" Dust Mop Frame with Fiberglass Clip-On Connector Bundle (#6524-F)

Free Dust Mop Frame with the Shank

The Shank-Free 24" Dust Mop Frame is made from a rubbery plastic that eliminates the ability to be sharpened into a shank. This is a standard 5" frame and the specialized polymer is Flexible, Strong, and Durable. The ribbing on the frame acts as a beater when shaking the mop.

The Clip-On Connector can be locked straight for hallways or unlocked for swivel action around corners.

(920) 487-3614 | sales@algomamop.com

Shank-Free 24" Backbone with Plastic Clip-On Connector Bundle (#6524-PL)

The shank-free 24" Dust Mop Frame is made from a rubbery plastic that eliminates the ability to be sharpened into a shank. This is a standard 5" frame and the specialized polymer is Flexible, Strong, and Durable. The ribbing on the frame acts as a beater when shaking the mop.

The Clip-On Connector can be locked straight for hallways or unlocked for swivel action around corners.

Shank-Free 36" Backbone with Fiberglass Clip-On Connector Bundle (#6536-F)

The Shank-Free 36" Dust Mop Frame is made from a rubbery plastic that eliminates the ability to be sharpened into a shank. This is a standard 5" frame and the specialized polymer is Flexible, Strong, and Durable. The ribbing on the frame acts as a beater when shaking the mop.

The Clip-On Connector can be locked straight for hallways or unlocked for swivel action around corners.

Shank-Free 36" Backbone with Plastic Clip-On Connector Bundle (#6536-PL)

The shank-free 36" Dust Mop Frame is made from a rubbery plastic that eliminates the ability to be sharpened into a shank. This is a standard 5" frame and the specialized polymer is Flexible, Strong, and Durable. The ribbing on the frame acts as a beater when shaking the mop.

The Clip-On Connector can be locked straight for hallways or unlocked for swivel action around corners.

Shank-Free Quick-Bite Wet Mop Holder (#6052C-PL56 Plastic, #6052-F56 Fiberglass)

The Shank-Free Quick-Bite Wet Mop Holder is made from a rubbery plastic that eliminates the ability to be sharpened into a shank or shank holder.

The locking feature the Quick-Bite has prevents the holder from inadvertently opening when bumped into baseboards or furniture.

This holder is available in the Plastic Handle (6052-PL56) or Fiberglass Handle. (6052-F56)

Handle connected to Plastic Flexible handle (6052-PL56)

Handle connected to the Black fiberglass handle (6052-F56)

Prison Safe Non-Woven Cut-End Mop #6054-M

Non-Woven Cut End Mop is the safest wet mop to have in correctional facilities.

- Extremely absorbent – holds over 200% more liquid versus cotton
- Releases 23% more liquid versus cotton
- Non-woven rayon/polyester material – lint-free; no raveling; no break-in
- Chemically cleaned and sanitized – will not promote mold, mildew or odors

Prison Safe 33 Qt. Mop Bucket Bucket #9053-MB

Plastic 33 Qt. Mop Bucket
with non-marking casters

- The funnel type wringer is most compatible with 12 oz.- 32 oz. mops

Shank-Free Easy Sweep Angled Broom (#6021-F)

The Shank-Free Easy Sweep Angled Broom bristles are designed and attached using a metal free bond. The broom block will not allow for bacteria, mildew, or mold to build inside of it and it will not crack, splinter, or absorb oil or water.

The Easy Sweep Angled Broom can be used with the Flexible Plastic Handle (#6044-PL56) or the Black Fiberglass Handle (#6044-F56)

Shank-Free Hand Held Scrub Brush (#6023)

- The safety handle of this brush is flexible and eliminates the ability to be sharpened into a shank.
- The bristles of this brush are designed and attached using a metal free bond that is safe for all to use. (No Staples)
- This is a 100% Metal-Free brush that is great for scrubbing tile floors, baseboards, countertops, and walls
- The “iron” pointed tip enables the brush to reach into tight corners
- Bacteria, mildew, and mold are unable to build up inside the block.
- The non-porous plastic block will NOT crack, splinter, or absorb oil or water

Shank-Free Scrubbing Brush (#6038C)

- The bristles of this brush are designed and attached using a metal free bond that is safe for all to use. (No Staples)
- The brush can fit any standard threaded handle and will give the user a universal 360 degree swivel action for ultimate cleaning purposes.
- The brush can be used on walls, floors, stairs, and ceilings.
- Pairs well with the #6046-PL56 or #6046-F56 Handle

Shank-Free Threaded Wall Washing Brush (#6019)

The #6019 Threaded Wall Washing Brush is great for bathroom walls, tile, and floors.

The strong bristles of this brush is your best defense in fighting grime on shower walls and floors. The brush can be used with a long or short handle or can be a hand held scrubbing brush.

Bacteria, mildew, and mold are unable to build up inside the block. The non-porous plastic block will NOT crack, splinter, or absorb oil or water

The brush is best paired with #6040 short handle or #6042-PI56/#6042-F56 Short Tipped-Long handle

The bristles of this brush are designed and attached using a metal free bond that is safe for all to use. (No Staples)

Tall/Large Trash Can

#6006-FR Fire Retardant Small Cell Trash Can Video

The #6006-FR Fire Retardant Small Trash Can is now available. This self-extinguishing shank-free trash can will extinguish within 2 seconds and is great for cells, meeting rooms, and common areas of the correctional facility. It is made from a specialized plastic that is unable to be sharpened into a weapon.

#6006-FR Fire Retardant Small Trash Can Video

The #6006-FR Fire Retardant Small Trash Can is now available. This self-extinguishing shank-free trash can will extinguish within 2 seconds and is great for cells, meeting rooms, and common areas of the correctional facility. It is made from a specialized plastic that is unable to be sharpened into a weapon.

Flexible Plastic 56" Handle (#6046-PL56 Long, #6044-PL56 Medium, #6042-PL56 Short)

1" diameter that is made from a special plastic that will virtually eliminate the ability for inmates to form or reform a shank or shank handle.

This Flexible, Strong, and Durable handle is designed to bend easily.

The handle is flexible however strong and durable to handle all cleaning tasks.

Of wood, fiberglass, and plastic, this plastic handle is the **SAFEST** handle to have in correctional facilities. It does not create sharp edges like wood and fiberglass do when broken.

#6046- PL56

#6044- PL56

#6042-PL56

Once this handle is broken or damaged it must be discarded immediately.

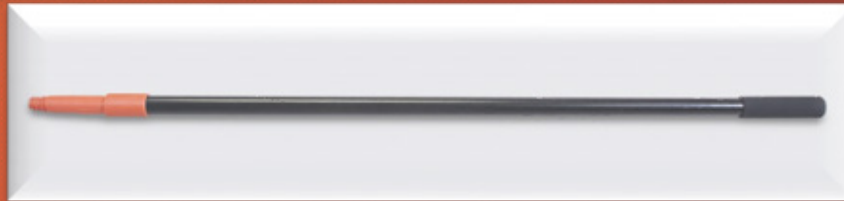

“Panther Pole” 56” Black Fiberglass Handle (#6046-F56 Long, #6044-F56 Medium, #6042-F56 Short)

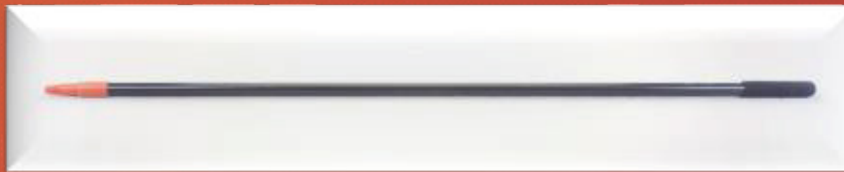

1” diameter handle is unable to be splintered or sharpened by abrasion.

The handle is strong, durable, lightweight, non-flammable, non-conductive, moisture, rust and rot free.

If abused the Briarwood Panther Pole black fiberglass handle will collapse

#6046-F56 Long

#6044-F56 Medium

#6042-F56 Short

Wood handles easily become deadly shanks, but... Panther Pole bends and collapses if abused.

Once this handle is broken or damaged it must be discarded immediately

Cuff/Restraint Box Products

We have recently added a new product category to our inventory- The Cuff/Restraint Box. This category is comprised of a Wet Mop Holder and Sweeping Broom that is able to fit into the Cuff/Restraint Box for inmates to clean their cells.

“We created a sally port effect with our cuff ports, and our previous cleaning products weren’t able to fit in that box. Briarwood was able to use their shank-proof products and custom-make them to the dimensions we needed so we can actually use our cuff ports in the proper way.” – Lt. Wine, OSP

Shank-Free Cuff Box Sweeping Broom (#6021-SH9)

The #6021F-SH9 is a Shank-Free sweeping broom designed to pass through a cuff/restraint box. This sweeping broom has a 9" handle and is ideal for cell cleaning.

(Pairs with the #6010 Dust Pan)

Cuff Box Wet Mop Holder (#9029-SH)

The #9029-SH Wet Mop Holder is designed to pass through the cuff/restraint box. This wet mop holder is our Tite-Bite (jaws) with a short handle attached to it. This holder and the mop are designed to easily fit into the cuff/restraint box. This product is ideal for mopping the cell.

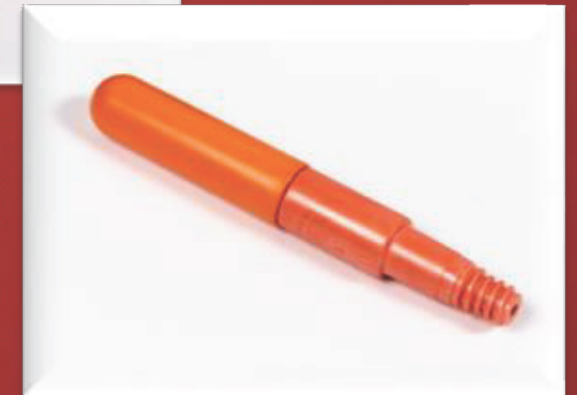

#6019 Threaded Wall Washing Brush

The #6019 Threaded Wall Washing Brush is great for cell cleaning and will fit safely in the cuff/restraint box. The bristles of this brush are designed and attached using a metal free bond that is safe for all to use. (No Staples)

(Pairs well with the #6040-SH9 Short Handle to provide a hand held scrubbing brush, or #6042-F56/#6042PL56 Short Tipped, Long handle)
