algoma mop

Empowerment in Action
since 1926

Working to make a difference!

Every mop we sell isn't just a cleaning tool; it's a symbol of empowerment, a story of determination, and a testament to the incredible abilities of individuals with disabilities. With each mop, we're not just cleaning floors; we're wiping away barriers, creating opportunities, and changing lives. Together, we're not just a company; we're a movement, working tirelessly to make a difference one mop at a time.

Algoma Mop

Mop Glossary

Endurance Blend

Our Endurance Looped End wet mops are made to last. Constructed with one continuous strand of yarn, they are the most durable mops on the market today. Made from 4-ply synthetic blend yarn. Looped ends resist tangles and frays. Can be laundered for maximum product life. Durable vinyl-coated polyester mesh center band available in wide or narrow.

Antimicrobial

Our Antimicrobial Looped End wet mop fights to stay clean. With built in protection that inhibits the growth of bacteria, fungi, molds and mildew, this mop is perfect for any use, especially in health care facilities and the food service industry. Made from 4-ply synthetic blend yarn. Looped ends resist tangles and frays. Antimicrobial protection remains active after repeated use and laundering. Durable vinyl-coated polyester mesh center band available in wide or narrow. Yellow fantail.

Candy Cane

Our Candy Cane Looped End wet mop is ideal for the final touch on your floors. The unique blue and white construction distinguishes this finishing mop from other mops. Made from 4-ply white rayon yarn with one premium blue strand. Looped ends resist tangles and frays. Durable vinyl-coated polyester mesh center band available in wide or narrow. Sizes available: 12, 16, 20, 24, 28 ounces.

Microfiber

If a highly-launderable, super absorbent mop is what you need, look no further. This mop offers superior on-the-floor performance with minimal lint residue. The microfiber also helps to reduce bacteria left on the floor. Made from super absorbent microfiber and constructed from high-quality materials.

Monofilament

Our Monofilament Looped End finish mop offers a solution to the main problems of floor finishing: lint, operator fatigue and wasted finish. • Made from white, no lint monofilament yarn. • Glides smoothly and evenly. • Releases completely. • Looped ends resist tangles and frays. • Laundering not required - just rinse in cool water and drip dry. • Durable vinyl-coated polyester mesh center band • Sizes available: Medium, Large, Extra Large.

Rayon

Our Rayon wet mop is perfect for liquid application. Rayon keeps chemicals and disinfectants on the floor longer, which is significant in health care facilities. Made from 4-ply rayon/synthetic blend yarn. Fast drying, relatively low lint. Mildew resistant. Looped ends resist tangles and frays. Durable vinyl-coated polyester mesh center band available in wide or narrow. White only. Sizes available: 12, 16, 20, 24, 28 ounces.

Relintless

The Relintless™ Microfiber Looped End Wet Mop glides smoothly over rough, abrasive floors and won't shred or lint. Unique microfiber blend picks up the smallest dirt particles for deep cleaning. Heavy-duty strands stand up to everyday mopping. Fantail style provides wide surface span and even coverage. Can be laundered and reused. Do not bleach and/or fabric softener. Comes with a 5" (12.7cm) headband. Sizes Available: Medium (Green Band Color) - 16 oz. Large (Red Band Color) - 24 oz.

Algoma Mop

Mops 101

Headbands

Narrow Bands

Narrow Bands are 1- 1/2" wide and come in a mesh material. Mesh is available in a variety of colors that can be used for color coding and identification.

Wide Bands

Wide Bands are 5" width and come in a standard mesh material.

NOTE: Mesh bands come in red, yellow, blue or green and provide an economical way of color coding. Mesh bands promote fast drying time to help prevent mildew and can be used as a scrubber for stubborn spots.

Maintaining

After Each Use

- Rinse a wet mop with clean water and wring it out thoroughly.
- Take a dust mop head and shake, vacuum, or brush it as necessary to completely remove the large particles that cling to it.

- Launder all mops at needed.

Laundering

Directions for Laundering Looped End Mops Only

- Put dust mop heads in a netted bag
- Wash in hot water (160 degrees) without bleach or fabric softener for 20 minutes.
- Never use fabric softener on a "Microfiber" product
- Never launder cut end mops

Storage

Storage of Your Mop

Your mop will last longer if it is thoroughly dried and stored in a dry area. When laundered, dry completely at less than 150 degrees for approximately 18 minutes without fabric softener sheets. Whether cleaned after a use or fully laundered, always hang a wet mop so that fibers face DOWN in a dry area.

Mop Wellness

Mops deteriorate more quickly when they are used inappropriately when used with excessive amounts of bleach or detergent when over washed or washed or dried in excessive temperatures.

For any of these reasons, or simply when a mop has been used so long that its weight is only 75% of its original weight, it is time for a replacement. Otherwise, it will take you 1/3 longer to get the job done.

Caution

Caution

Dura-Lon dries quickly. Use lower temperatures and reduce drying times. Bleach will cause severe weakening and deterioration. The use of fabric softeners is NOT recommended.

Algoma Mop

Disposable Dust Mops

Our Disposable Dust mops are highly effective and economical. These mops are also available treated with Dust Cling. Tightly twisted cotton yarn is pre-treated with superior dust collecting compound to enhance dust pick up. Open-back construction with ties. Made from cotton/synthetic blend with a Typar backing. Typar resists staining and will not absorb treatment. Sizes available: 5" width ranging from 12" to 72" in length.

Not Launderable!

Microfiber Cleaning Towels

Anti-microbial microfiber cleaning towel

NOTE: sold by the dozen or case of 200

These towels are crafted with NOVARON®, a silver-based antimicrobial agent woven into the fibers. This allows them to maintain their antimicrobial properties through numerous washes, effectively combating most bacteria within 24 hours. NOVARON® is EPA and FDA registered, safe, and highly effective. They can be laundered and reused—avoid bleach and fabric softener.

Color	Size	Item #
Silver	12 x12	MIC30-Silver Ion

Microfiber cleaning towel

NOTE: sold by the dozen or case

Utilize the 100% microfiber cloth for all your cleaning tasks! It's soft, strong, lint-free, and absorbs dirt effortlessly. Made from a blend of microscopic polyester and nylon, it holds seven times its weight in water. Minimal cleaning solution is needed—go dry for a quick wipe! Reusable after laundering; avoid bleach and fabric softener.
